

Conversations with Abraham Joshua Heschel

Lecture followed by a Contemplative Writing Workshop

The image symbolizes human beings' care for the creation, as they are called to do as God's stewards on earth.

The Conversations with Abraham Joshua Heschel offer participants the opportunity to explore the wisdom of Dr. Abraham Joshua Heschel, 20th century Jewish mystic and activist. His writings continue to warm the hearts and challenge the thoughts of many.

This is the third of the series: Conversations with the Great Mystics, followed by:

February: Conversations with Ibn Arabi

Facilitator.

Jeanette Renouf, D. Min, Ph. D., has been faculty at four schools of spiritual direction and co-founder of three of them. She is a retired clinical psychologist of 40 years, a spiritual guide, and international retreat leader.

This event is organized by the Southwest Center of Human Inquiry of AIWP with the collaboration of Dr. Annick Safken.

The Friday evening lecture will present the broad spectrum of Heschel's life and writings.

During the Saturday workshop we will use the Deep Self-Discovery Method, developed by the facilitators of the Southwest Center of Human Inquiry. With this specific approach to contemplative reading and writing, we will engage more deeply with mystically focused selections from Heschel's writings.
